PROFESSIONAL SUMMARY

Data Visualization Developer with experience in transforming complex datasets into clear, interactive, and insightful visual representations using modern tools such as Python, Tableau, Power BI, and JavaScript libraries. Strong foundation in data analysis, statistics, and storytelling, with a focus on uncovering patterns, trends, and actionable insights. Currently focused on enhancing skills in data modeling, dashboard design, and real-time analytics to build scalable and user-centric visual solutions.

EDUCATION

Bachelor of Technology (AI ML) RISHIHOOD UNIVERSITY, NEWTON SCHOOL OF TECHNOLOGY	2024 - 2028 Grade: 7.25/10.0
Intermediate (Class XII) U.S.M senior secondary school	2022 - 2023 Grade: 77.0%
Matriculation (Class X) O.P JINDAL MODERN SCHOOL	2020 - 2021 Grade: 91.0%

PROJECTS

Uber-Data-Analysis Dashboard ([Github](#)) ([Demo](#)) April 2026

- **End-to-End Analysis:** Built an interactive Tableau dashboard transforming Uber trip data into insights on bookings, revenue, and customer behavior.
- **Demand Revenue Insights:** Analyzed time trends, distance, pricing, and locations to identify peak hours, ride patterns, and key revenue drivers.
- **Business Insights:** Delivered actionable findings to optimize pricing, improve demand forecasting, and enhance operational efficiency.

Customer Analysis Dashboard ([Github](#)) ([Demo](#)) April 2026

- **End-to-End Workflow:** Complete sales analytics pipeline from data cleaning to interactive dashboards using Power BI/Tableau (+ Python/Pandas).
- **Performance Analysis:** Evaluates revenue trends, customer demographics, products, discounts, and regional performance to uncover key drivers.
- **Business Insights:** Provides data-driven recommendations to optimize revenue, target customers, and improve strategic decisions.

CERTIFICATIONS

Introduction to Figma Simplilearn ([Link](#)) May 2025

This professional has demonstrated initiative and a commitment to deepening my skills and advancing my career.

NCC O.P JINDAL MODERN SCHOOL April 2020
NCC 'A' CERTIFICATE WITH 'A' GRADING

SKILLS

Computer Languages: Python, NoSQL, HTML, CSS, JavaScript, SQL

Data Tools: NumPy, Power BI

Software Packages: Pandas, Figma, Tailwind, Tailwind CSS, React, Node.js, Excel, MySQL, MongoDB

Additional Courses: Data Structure

Others: Tableau, Git and Github, LangChain, LangGraph

EXTRA-CURRICULAR ACTIVITIES

NCC ('A' certificate holder)

VolleyBall (Captain of University Team)
